

REMARKS

Reconsideration of this application is respectfully requested in view of the above amendments and the following remarks.

The Examiner indicated the allowability of claims 35-37 in the Office Action. Accordingly, in order to advance the prosecution of this case, claims 1-34 have been cancelled without prejudice. Applicants reserve the right to pursue these claims in a divisional application. Claim 35 has been rewritten in independent form.

In view of these amendments, applicants respectfully request passage of this application to issue.

Respectfully submitted,

/Sharon E. Hayner/
